Connected Learning Handout 1: Connected Learning and Educational Equity

Small Group Discussion
In your small group, based on the video¹, discuss the questions below. Make sure you hear from everyone in your group. You have about 30 minutes to talk before we reconvene in the larger group. Don’t worry if you can’t get to every question but do try to respond to as many as possible in the time frame.

Questions to discuss:

1.) What did you think of the video?

2.) What is the population your library program serves? (Think about race, ethnic background, socio-economic status, and gender.)

3.) What are some of the passions/interests that your youth exhibit? How do they exhibit them at your site?

4.) How does your library nurture their passions?

5.) What are some concerns you have about your community’s youth?

6.) What more do you wish you could to do to serve them better?
